## The Sophomore.

---

He monkeys with chemical Lab.,  
And dabbles with Physics too,  
And tries to show innocent Freshmen  
What a smart little "Sophy" can do.

He goes to germans at night,  
And fools all his best time away  
On a charming young miss of thirty,  
Then sprints down to chapel next day.

But he's fated to fail on his finals,  
And his failing will cost him dear,  
For our sporty and interesting Sophy  
Will be in the same class next year.

He will never pass by McGregor's,  
For he and old Mc "don't speak,"  
But he says "unprepared" to old Riley,  
And then cuts college a week.

He stands 'round the corner all day,  
And loafs at the 'Varsity Place  
And tries to drink "Trilbys" and "Flashes,"  
And pass in for checks his "slick face."
