There is quite a lot of young men to be
equipped and hire temporarily, until our
home was deemed ready and built. Long had
been saying that he wanted to call the old age

advantage in these down no one to claim them when they
are ready for work if they intend it. In which, think they set.
I am in Santa Fe. We have just arrived, and I feel very tired, but I hope to get a good night's sleep. We have been traveling for a week. The trip has been very tiring, but I think we will be able to get some rest.

The town of Santa Fe is quite different from what I expected. It is much smaller than I thought, and the buildings are very old.

I have been visiting some of the local churches, and I have been impressed with the architecture. The buildings are very beautiful, and the art is very interesting.

I have also been visiting some of the museums, and I have learned a lot about the history of the area.

I am looking forward to spending the next few days here, and I hope to be able to see more of the town.

I am feeling very tired, and I think I will go to bed early tonight.
Enjoy it, dear Bessie. Has written me a nice letter. She says she too will be in Nashville for a month. It will be delightful to see you again. How are the children? I hope the Bennett children are all right. If you have not heard from them, be sure to write them.

We have heard nothing from your sister in law, Mrs. Williams. We have heard from your sister, the one in the South. She is quite well. She is coming up to see us soon.

The weather here is quite hot. We have had a few storms, but no rain. The days are long and the nights are warm. One day, I wish it would rain to cool off.

I have been thinking about the newspaper articles you sent me. I hope you will write me soon. I am looking forward to hearing from you.

I hope you are well and enjoying yourself. Please write and let me know how you are doing. I will be sure to write soon.

Yours truly,

My Dear Brother,

I do not know what day of the month this is but I know it is Tuesday and that it has been Examination week and a busy time. It has been for all and I must confess a pretty hard time for me with my little children besides. I hardly know how I have got through having had company all the time and since Wednesday morning at every meal and the nights besides. But we are all well and I am very tired and have some headache but I am not going to do anything more this week only have a ‘clarion’ time.

Everything passed off very last night was German Exhibition and was good

also visited us accompanied by her 
sister and left last evening.

They are from Canada and have 
been visiting in Michigan two weeks 
the wish to visit the University 
but have no acquaintance in that, 
except Mr. Brooks. I took the 
liberty to invite them to go to Hill and 
the your guests which instantly the 
accepted very gladly and if nothing 
happens they expect to be there 
next Wednesday and will stay till the next morning. Now if 
you will meet them at the Depot 
and take them through the 
University sometime during the day 
you will greatly oblige both they 
and us. I hope you will 
not put yourselves to extra trudge 
about the house or table but

make them welcome as that 
is all they want. They are 
intellectual and accomplished and 
refined and proud to trouble them 
selves or others with unnecessary 
things. I rather we had a very 
delightful visit from them. They 
were all over the house just as 
Julies would; have been. They 
are now visiting some cousins 
out in the country plans for 
new people. They will have 
Mr. M. anything unexpected should
