Oct 6, 1932.

My dear George Loomer—

I am writing you now because I have many claims to do so, but the cause, we had our going in common—our culture, love for your father, mine was very strong because of the love between your father and mine.

I am in dire distress.

For twenty years I have earned my living, and a very poor one, and have accumulated what I suffered and always take care of me. And this is in jeopardy.

My property here is very valuable and the house is full of beautiful antiques, which in ordinary times I could sell, I have tried everything. I have had and can still writing the dealers are out in this, the prime position. I am sure I have had no customers for over two years, as we mind was Americans.

My store, which is at our real estate worth about $125,000, I need $100,000, I must be cleared and sold out at this time, looking like this balance can be realized—yet at forced
Sales tax - a considerable 60% always
made 25% more lost than on the
7.5 cents - which would mean a profit
on my stock of variegated mohair with the possibility
that I do not like it or not. I can
with a loan but cannot
effect it at about 50.75% which is
impossible for me to pay.
I could not be in the position
I am, but it was been out I had
helped my cousin George Boys
Jr. He is a maker and his mother
a remarkable lady. Christina
Safa. Published by W. D. Tullis
about a year ago - so nearly
as can be ascertained it was 1
of your in the spring
My cousin ran I had received
a legacy left him by his grand
mother to be to aid others he
was 50.75%. I have I have
my money back. So much my obsequies
The Fruit Company at the last moment
left. Said they were unable to
Pay Cash. The mortgages were
unsalable - To add to my
Fortunes my cousin went out of
the ruin - Pray God he is
Coming back -
I am despaired. I do not know
which way I knew.

I do not know anything
about your financial situations.

But if you could send with your letter $500

I would be able to help myself.

And if you could repay me the interest for a year,

then I would be able to help myself.

I am honest and I have never complained with my labor.

And I have been patient but I was able to do as

I have done.

I have dismissed my servants,

to reduce my expenses which are

never very heavy.

I was young and I knew what to

do - when the thought flashed across my mind. Ask. George

former, so I am writing.

I am 73 years old. The assurance

of this sum before the 20th of this month.

I know if you help me, I will make

a better paper for you.

Please cable me. Cassette, via

Paris. Your assurance, I then you

can send it to me.

Then I will die, then I would ask...
A woman alone has not an easy role in life. And she has to face whatever comes.

I do not know your home address or I did not write that. Please remember me quite kindly.

Against this, I would also prefer not to ask you, but I am alone and I have no claims on any body in this world.

Nothing you will read this letter in the spirit it is written and will every person in this world for your and yours.

Dear Faithfully,

[Signature]

My dear George Lorimer—

I presume that you have thought that I was unmindful of my obligation to you, but such is not the case.

Many women of my age would have given up and I do not know what they would have done. But I know that whatever comes to us is our own fault, we create wrong conditions by wrong thought, and we can create right conditions by right thought.

It would not be true if I said I had corrected everything all in a minute but I have moved mountains and have done something that very few would have believed possible. Started a publishing company which is going, without one cent of visible capital. You who are in that business understand the mechanism of it.

For years and years I have realized the power of thought in everything, it is a long story, to tell how my intuitions work and always have worked when I put my conscious mind out of the way. In brief I came in contact with a book THE INVISIBLE INFLUENCE written by Dr. Cannon, my intuitions and sense told me that it was true. I contacted Dr. Cannon for I felt it was just the book that the French should have at this time. His editor had been slow and had not gotten a French publisher. I told him that I would translate the book and get it published. In the meantime I contacted one of the best French writers George Barbarin, and helped him with the laws of mind, in doing this I translated what I had myself written upon the subject, and after a few conversations he said "you have given me the Key of life, what you have written should be put into print for the French need it." I told him that I thought that The Invisible Influence would arouse interest; it has gone into 100,000 copies in Eng./and pave the way for my book, this agreed to. The question was how we were to do it? I told him that the way that I believed, that if it was the thing to do the way would open and for us to get it into shape. This we did, commencing last September, doing the work over hours for he had to earn his living and I too, his way was clearer than mine. When it was almost finished, an idea came why not try to sell the spectacular part to a Paris Daily as a "rapportage" we proposed it in 24hrs they took it and gave us four days to deliver, that we accomplished, and the most remarkable thing was that they advertised the book, which was not yet published. We sold the rapportage for enough to get the first edition of the book printed, worked like Trojans, and got it out in time to profit by the advertising, for they pay cash and we had enough money from the Paris Midi, to pay everything, so decided to be our own editors, the book came out the 15th of March, according to our contract with the distributing house, we would only get money if we had to give them 50 per cent, three months after the term, so that meant first of July. But they without our asking them offered us an advance the first of April for the first edition 2000 had been sold in 15 days, this allowed us to get out 3000 more. We advertised my book LA CLE on the back, and we have enough subscriptions, to absorb the first editions and most of them have been paid in to us personally so we do not have the percentage to give to the distributors. We will not get the money from the distributors for
those sold after April first until Oct, but I am sure that they will play the game and advance to us, which will help for the book out now is the best seller and they all say that my book will do even better. I have notes for two others material which the people that have written along these lines in English have not given. I seem to be getting inspiration as I did during the war about the making of the apparatus for the wounded, only along the line for the wounded mentally and morally.

Few people understand the relation between controlled breath and mental processes, and between controlled breath and body. I have long made a study of the sympathique system the plexus, I now know why your dear father succumbed to his operation, they cut into the sacral plexus. Dr. Cannon is a nerve specialist and he tells me that I am correct he is sure, but that the Western Medical World are not there yet. You see George I have followed my father's bent in studying the Oriental Religions, and fell upon many practical things for the west, but that is a long story, but I have proven, not only with myself but with others that I am correct. I now know that no bodily disorder cannot be cured, I have melted two huge fibril tumors in less than a month, but I cannot do everything that I know how to do so must pass it on as quickly as I can and let others work upon it too.

Mentally I have gotten myself well in hand, my crazy cousin threw me off, together with my financial losses. God only knows how I have been able to manage, and save myself from complete wreck, I have sold what I had and could mostly for a tenth of the value, but very grateful to be able to do that. I get up at six thirty and go to bed at ten, work never killed anybody, it is good for us all, I change from mental to physical work so it is balanced.

I do not know whether you are familiar with David Davidson's work upon the Pyramids, but from what comes to me, I have always seen world events before they materialized. He is correct, and we are at the end of the Age, and get out of Chaos in Sept 1936. I do not tell what comes to me for there is enough panic and I know that all is working out for the best for everyone. The next few months are very important ones, it is not only what has come to me but what has come to Cannon and two others that I know we have all gotten the same messages, each in a different way, there are big Geographical Changes due, we will have a book ready by fall, and Paris Soir is taking our Rapportage.

In all that is to come America plays the first role, she is going to lead the way of that I am sure, and France will follow, it is written in the Law and nothing can stop it.

It is very hard for me to keep thoughts off these big things that have to be done and turn to my own crying needs, but I am doing my best knowing that God is over all. The world has to get back to God and Christ there is no other way.

I have gotten to the place where it seems that I can sell nothing, I have not been able to meet my interest upon my mortgage, they have me by the throat, and will sell me out the 18 of May for 10,000 francs, I have that and my taxes, which makes 15000 or just one thousand dollars. I have done my best in every way, not bought a single thing in the way of clothing for three years, have lived upon just the simplest diet possible, paying out each cent that came in and grateful to do it. I blame no one but myself. I do not feel sorry for myself and have no doubt that in time I will get all behind me. For where there is a will and faith there is a way.

I know that you have your own responsibilities, and I have no claim upon you in anyway, but if you could see your way clear to lend me another thousand dollars it would save me. This property is one of the most beautiful
in France, but at this moment there are no buyers. I presume the same applies everywhere.

I have no one in the World upon whom I have any claim, and in the last analysis, we come into the world alone and we go out alone. I do not fear death and it is a long ways ahead of me of that I am sure, I have tried to do my best all my life, and to help others where I could, this past year. I have saved three from suicide, that is something.

If you can do this, I have waited until the last moment to ask you please do, it is too late for a letter to get back, but if you cable me upon receipt of this, either the word "Sent," or "Impossible" and if you can then I will be able to borrow here until it comes.

I am grateful for what you did do for me. I never look back but forward to the goal. It is the only way. I have kept my head up doing what seemed right and not wavered. I am calm and full of courage and health.

With every good wish in the world for you and yours—

I am faithfully,

Grace Gassette

Cable.
Gassette, Bagaimville, Sek. 10.

P.S. I have a man outside no one in the house.

THANKS YES=
GASSETTE..
My dear George Lorimer

I am more grateful than I can express for your generous response to my appeal—and I will get everything straight in time.

We are punished by our mistakes and sins, and not for them. If it has been hard sledding for me it is my own fault and I take it that way and am grateful that I see my mistakes and am correcting them.

I realize that you like everyone else have been reduced, but it is not for always. We have within ourselves all power, the laws of thought are so simple that we are loath to accept them. If we could only function in our superconscious instead of our conscious minds, all would be clear before us. It is what Christ taught but man goes upon his own and he comes to grief.

Science is getting nearer and nearer to what Christ taught. Today science is having a good deal to say about short waves and their force, man in his mental uses waves even shorter than television etc., and if he would wake up and realize the force of these waves, when he accumulates electricity or mental force and uses it consciously he would be surprised at his power but most of us, instead of using our thoughts positively use them negatively and short-circuit ourselves.

I am trying sincerely to use my powers constructively and to eliminate everything negative and I will succeed. I am trying to tune my receiver, my mind to receive what I know it can, for when all is said and done we all use the same mind substance, which comes from the one Source, but we often tune in to the thoughts that surround us, get heterodynes and then wonder what is the matter.

I see that another great earthquake has come, I foresaw these two, and there is still another to come very soon. There is no question but what we are at the end of the era, and what Christ said is being fulfilled. There is no question about it after this Chaos we are going into the light and all will be better, but men have got to get back to God, forget man made creeds and dogmas, and realize that Christ taught the Laws of Life for us here where we are and not for some future life.

Le Clé is at the printers, and the third book is almost ready to be sent. I do not dare publish what I KNOW, it would make a panic among many, but watch events between now and the 5th of Dec. I never get exact dates, nor exact localities, but countries, we are due for earthquakes, in America, in France and in Italy, land is rising in the Atlantic and there will be no need of artificial islands for Aeroplanes, they will be there. Certain men who are obstructionists in Europe have to go also and they will. When an organization is spending what the Carnegie Peace Fund is spending, STUDYING THE CAUSES OF WAR, TO OBTAIN PEACE, is most significant of the lack of THOUGHT among so-called intelligent men. The world just does not think.

Again thanking you and assuring you that I am grateful and not unmindful of your self denial in helping me.

With kindest regards to your wife and yourself,
I am faithfully
