COMPLETE BUSINESS DIRECTORY.

1882-1883.

C. M. GARDNER, PUBLISHER.

GAINESVILLE, GA.

ENRAK M. TIGHELL, PRINTER.
1883.

Hall County Library
Gainesville, Georgia 30501
When the idea of a Directory was first broached, its need was questioned by many, being regarded more in the light of a luxury; but as the work progressed its general utility began to be understood and appreciated, and its completeness is, in a large measure, due to this liberal spirit. No pains on the part of the Publisher has been spared to bring the work up to the standard; and while it is possible a few minor inaccuracies may have crept in, they are of small import, and do not detract from the value of the work as a book of reference.

Especial pains have been taken in the compilation of the business interests of the city, and the reader will be enabled to see at a glance the entire trade of the city, as well as its growth in the past ten years; its present prosperity, and its promising future.

Respectfully,

C. M. Gardner, Publisher.

GREETING:

With thousands of thanks to those who have so kindly favored us with their patronage in the past, we beg to say that, appreciating the rapid strides being made by our section and city, we have greatly enlarged our facilities for the transaction of a business that shall be commensurate with Gainesville's rapid growth and commercial interests. We have now in stock and are receiving

ST APLE & FANCY DRY GOODS, HATS, BOOTS, SHOES & CLOTHING.

We invite special attention to our unusually large stock of Ladies' and Gents' HATS, TRUNKS, VALISES, SATCHELS, UMBRELLAS, etc.

AGRICULTURAL IMPLEMENTS—Oliver's Chilled Iron Turn Plow, Plow Stocks, Bridles, Saddles, Harness, Plow Gear, Plows, Plow Points, Single Trees, Hames, Collars, etc.

HARDWARE.—In this department we cannot be excelled. Iron, Nails, Wagon and Buggy Materials, Horse Shoes and Nails, Locks, Hinges, Mechanics' Tools, etc.

COOKING AND HEATING STOVES.

In this line will be found a full and complete assortment of everything needed by the house-keeper. Only the best makes and lowest prices. No one should purchase anything in this line without first seeing our stock.

OUR FURNITURE DEPARTMENT.

To this line of goods we devote an entire floor, 50x60 feet, where we display furniture of every description.

CROCKERY AND GLASSWARE.—A glance at this stock will delight every house-keeper.

We make specialties of Flour, Cotton and Grain, including Clover and Grass Seeds. We keep absolutely everything usually found in a miscellaneous stock. We pay the highest market price for all country produce.

GRAND DISCOVERY.

McDonald's

COMBINED FIRE AND WATER PROOF CEMENT

PAINT

For wood and metallic roofs, fences and brick walls. This discovery is one of grand importance to every owner of buildings. It is perfectly elastic; contracts and expands with the weather without cracking, and will not melt. It is fire proof, water proof and will preserve exposed wood one hundred years. It is the cheapest paint.

State and County Rights at Low Figures.

There is a grand opening for men of small capital to make from $250 to $500 a month by buying a county or so. A few of the many references will serve to show its value: Gen. James Longstreet, Col. A. B. Candler, Col. W. L. Gordon, and every other citizen of Gainesville, Ga.

Fire Proof, Water Proof and a Cement that Will Make a Cloth Hold Water.

With thousands of thanks to those who have so kindly favored us with their patronage in the past, we beg to say that, appreciating the rapid strides being made by our section and city, we have greatly enlarged our facilities for the transaction of a business that shall be commensurate with Gainesville's rapid growth and commercial interests. We have now in stock and are receiving

**STAPLE & FANCY DRY GOODS, HATS, BOOTS, SHOES & CLOTHING.**

We invite special attention to our unusually large stock of Ladies' and Gents' HATS, TRUNKS, VALISES, SATCHELS, UMBRELLAS, etc.

**AGRICULTURAL IMPLEMENTS** — Oliver's Chilled Iron Turn Plow, Plow Stocks, Bridles, Saddles, Harness, Plow Gear, Plows, Plow Points, Single Trees, Hames, Collars, etc.

**HARDWARE.** — In this department we cannot be excelled. Iron, Nails, Wagon and Buggy Materials, Horse Shoes and Nails, Locks, Hinges, Mechanics' Tools, etc.

**COOKING AND HEATING STOVES.**

In this line will be found a full and complete assortment of everything needed by the housekeeper. Only the best makes and lowest prices. No one should purchase anything in this line without first seeing our stock.

**OUR FURNITURE DEPARTMENT.**

To this line of goods we devote an entire floor, 50x80 feet, where we display furniture of every description.

**CROCKERY AND GLASSWARE.** — A glance at this stock will delight every housekeeper.

We make specialties of Flour, Cotton and Grain, including Clover and Grass Seeds. We keep absolutely everything usually found in a miscellaneous stock. We pay the highest market price for all country produce.

THE GEORGIA SEMINARY
FOR YOUNG LADIES,

IN GAINESVILLE, Hall county, Ga., will open
September 4, 1882. Full corps of Teachers
in Science, Music and Art. Not surpassed for
health, economy and scholarship. Board for fall
term, $40; tuition, $16; music, $14. Preachers,
laughters, teachers and poor girls at reduced
rates. The last is said to be the best Commence-
ment in Georgia. For further information and
catalogue, write to WM. CLAY WILKES,
July 8, 1882.
President.
The county was organized in 1818, and the first court held in 1821, at Esquire A. J. Davis' place, about one mile from the present site of the court house. Nothing seems to have transpired at this term worthy of especial remembrance. The county affairs were then, and for many years afterwards looked after by five Justices, selected from different sections of the county, whose duties were to audit and examine bills, look after the roads, school interests, in fact they constituted the entire government of the county, and had almost unlimited power. For doing all this, they were content with the approbation of their constituents and honor of their office as pay, which goes to show that the civilization of that day was rather crude as compared with the present age.

Shortly after the holding of the first court, the question of a permanent location for the court house was agitated. Three places were voted upon—this place, Limestone Spring and one ot-

GAINESVILLE, GA.
or place not remembered now. The result was in favor of Gainesville, and a court house erected in 1833. This was accidentally destroyed in 1851 by fire. The present building was erected in 1852, and is said to lack the convenience of the former one.

In the formation of the town, about the year 1822, Col. Stephen Reed donated fifty acres of land to the town, reserving certain lots for himself, and thus a beginning was made. The growth of the town was comparatively slow, the county being new, and its rough surface not very inviting to immigration, and a great deal of the emigration that had been attracted here, was caused by the discovery of gold in 1829, the news of which spread rapidly, bringing many adventurers with some of the better class of pioneers. The former of these soon made trouble by getting on Indian territory, and committing outrages, foreing the government to send troops here to preserve order and prevent intrusion on the reservation. In this they were about as successful as at present in the far west. Parties were constantly slipping over the line and causing fresh troubles, until poor Lo was removed without his consent to the west, there soon to encounter the same troubles. After this the gold excitement having greatly subsided, attention was turned to agriculture. The rich alluvial bottoms of Little River, Chattahoochee, Wahoo and Oconee Rivers, whose beautiful clear waters flowed through the county, besides numberless creeks and lesser streams, were found to

be unequalled anywhere in the world, and at such an altitude above the sea that sickness was almost unknown. From this time the growth and development was steady and permanent, filling up with sturdy pioneers not afraid of work, inspired with the determination to build for themselves a home. Practically the music of the "woodsman's axe" was heard in the land. Substantial farms, producing the riches of the earth dotted the face of the county in every direction, cotton, corn, wheat oats, potatoes, grasses, tobacco, fruits, in fact everything indigenous to the temperate zone grew in the greatest abundance. The people were contented and happy.

Gold mining was carried on all the time, but only in a small way, the excitement on the Pacific slope having drawn attention thither. After the war however, capitalists began to examine the mineral resources of the country, and now Hall county has several noted gold mines in successful operation, and many more being developed, mostly by foreign capital.

THAT CITY, PAST, PRESENT AND FUTURE.

The close of the war found Gainesville a small isolated village of three or four hundred inhabitants. Its history previous to the war was with the exception of the fire in 1851, which consumed three sides of the square, uneventful. The citizens pursued the even tenor of their way, far "from the maddening world,"
content with a hack line three times a week to Augusta, the then metropolis of the state, and from which point all, or at least the bulk of supplies came. Later hacks were run to Atlanta. This used also to be the favorite stopping place for Kentucky mule drovers on their way further south, and the Findley spring was known by them as Mule Camp.

The railroad which reached here in 1871 put new life into the town, completely changing the old order of things, a general “shaking up of dry bones,” as it were. The beauty and healthiness of the location coupled with its advantages as a business point, soon became noise abroad, attracting people of energy and means from all portions of the country, bringing up property and infusing new life into everything. Buildings of all kinds reared their forms as if by magic. The writer himself, while on a visit some ten years ago, saw fine buildings finished and being built on streets which were yet either full of stumps or actually in the woods. The mining interests began to be prosecuted with renewed vigor, and capital in large amounts began to flow in from this cause, greatly stimulating the old residents, many of whom had become impoverished by the war, and were dispirited as regarded the future of the country. It also poured golden fruit in the lap of the new city, for such it had become in this brief space of time, in fact, so short that it was the favorite pastime of the villagers to compare its growth with the mushroom, and predict an early crash with same rapidity of its building. The monetary panic which swept over the country in 1873 like a deso-
Latting simoon, 

ated its progress somewhat, 

but only temporarily. Since, although its 
growth has not been so rapid, it has been steady. 
Two disastrous fires occurred during this time, 
one in 1873 and the last in 1876, in which heavy 
losses were sustained, but enterprise soon replaced 
the burned district with even more substantial buildings than before.

The summer resorts near the city have, and do 
yearly attract hundreds of visitors from the ma-
laria of the lower countries, who contribute their 
portion as well as enliven by their presence the 
Magic City of the Mountains, and receive in re-
turn for their sojourn in pure air, use of the re-
store waters, beautiful and romantic scenery, a 
return to perfect health, going home singing our 
praises, to return and bring others with them on 
the return of the next summer’s heat.

The city shows by actual computation, a popu-
lation of something over three thousand souls, not 
taking into consideration the large floating pop-
ulation usually found around cities of this class 
and size. The outlook for the future is brighter 
now than ever before. Substantial business 
buildings and fine residences, which would do 
credit to cities of larger pretensions are being 
erected in all portions of the city, and the want 
of house room is daily being more felt. The sub-
ject of a new court house is being agitated, which 
will undoubtedly result in the erection of a tem-
ple of justice worthy in every way of the good 
name which the county and city bears.

As a cotton market the city stands way up, 
about eight thousand bales being shipped annu-
ally. This large amount comes too from a see-
tion not strictly a cotton country, large amounts of other produce being raised sufficient for home consumption and to spare.

Among the public institutions of the present, none are more worthy of mention than the Gainesville Fire Department, volunteer, composed of the leading citizens of the city, having an improved hand engine and all the paraphernalia for fighting the fire fiend. This was organized in 1878, but with the exception of a slight brush or two, they have yet to receive their "baptism in fire." They are however, in good trim and will be on hand when wanted.

The colleges have done much towards making the city what it is, for education and enterprise to succeed must go hand in hand. The city boasts of three such institutions, sketches of which will be found elsewhere. All of them have started in the present sessions with increased attention, and more general interest manifested by the public at large, which points to this city, in the near future, as becoming noted for its educational facilities.

The present railroad enterprises of the city are inspiring the citizens with new zeal. The Gainesville, Jefferson and Southern, Dahlonega, narrow gauge roads, and the proposed standard gauge road to Dalton, will open up a new and hitherto an almost inaccessible region, rich in the precious metals, and a fair farming region which naturally look to this city for its base of supplies and outlet to the world beyond. Work is being actively pushed on the former two, and preparations for work on the latter.

Following this will be found separate sketches
of the schools, churches, institutions of every kind, with a complete business resume of the city. Nothing has been overdrawn in any respect, and will prove interesting as well as a reliable guide to those seeking information in regard to the city, as it contains every name, profession and firm of the slightest importance in the city. The county towns have a similar department in these pages which will likewise prove interesting.

A GROWING AND IMPORTANT INDUSTRY—THE TANNERY OF WOOD & RUDOLPH

Few visitors to our thriving city take time to inquire, or even think of doing so amid the general rush of business, after this most important branch of trade. Most of people seem to think that the north or east is the only place where leather can be made, the idea never occurring to them that all the requisites are obtainable at home in the greatest abundance, and in much better condition. A look at the tannery of these gentlemen will, however, undeceive as well as astonish them. The business was established in 1878, and is located about one mile and a quarter from the public plaza, leading out Oak street in a westwardly direction. So situated that the purest running free-stone water is obtainable in the greatest abundance, a part of which is utilized as motive power for a mill on the premises. Sole, Harness and Upper leathers are the principal products, and for them sale is readily obtained in all parts of the state, preference being given these goods.
over any other in the market. The superior quality of the leather is produced in a large degree by the use of freestone water, which toughens and renders more pliable. The raw stock is obtained mostly at home, while the bark all comes from this and adjoining counties. Taking it all in all, it is one of the most important enterprises by two of the most energetic gentlemen in this section of the state.

C. J. HADAWAY,

Harness and Saddle maker, commenced here August 1882. He is a capable and energetic workman, and is fast building up a good trade. He is fully prepared to promptly meet any and all demands that may be made upon him.

J. W. WOODING,

The well-known contracting carpenter, has been identified with the city since 1870. His standing as a workman is attested by many handsome structures scattered throughout the city, some of which are simply elegant and reflect much credit on both him and their owners.

M'DONALD'S CELEBRATED ROOF PAINT—W. JAY M'DONALD, PATENTEE AND PROPRIETOR.

In these days of patents, humbugs without number, it is a pleasure now and then to find one possessing all the merits claimed for it. But when that article is invented by a home man, the pleasure is doubled. There is so many roofing paints, all claiming wonderful merits and so many failing short, that when Mr. McDonald's
came out but little attention was paid to it. "The proof of the pudding is the eating thereof" and so it was in this case. When it was shown that as a preserver of roofs it stood unequalled and was absolutely fire proof, putting out sparks and coals at once without injury, it began to be appreciated commensurate with its merits. The writer has himself witnessed the hardest test that could be applied, a blaze, which only had the effect to slightly soften, but did not run off or crack when dry. We unhesitatingly pronounce it the most useful invention of the age.

GAINESVILLE STREET RAILROAD—DR. ROBERT E. GREEN, PROPRIETOR.

When the idea of a street railroad was first suggested, it was looked upon by many as visionary, but the time had arrived, and during 1874 the enterprise was completed from the public square to the Depot, a distance of a little over a half a mile. It proved to be a magnificent success from the start, especially for carrying 'eight. In this its cheapness done away with drays. In 1877 an extension of about one mile and a quarter was built out Green street to Gower Springs, which greatly added to its general usefulness. Other improvements will be made as the growth of the city requires.

A NOTABLE INDUSTRY—THE SHOE FACTORY OF SHELLY & DUSKIN, EST. FEB. 1881.

To the average stranger who, in common with
for the masses could only be made in the east, where labor is cheap and split leather has its home, a shoe factory is indeed a novelty. As to its success, it is simply the old story of any enterprise which is headed by energetic men. From its inception, the business increased, the only trouble being at times the want of skilled labor. At present they are running to the full extent of their factory, with constantly increasing orders, which shows, while putting up a superior class of goods, they are successfully competing with eastern prices. The factory is in every way a credit to its proprietors and the city in which it is located.

THE ARLINGTON HOTEL. W. M. FRENCH, PROP'R

It is not only a matter of astonishment to the "old inhabitant," but to the stranger on getting out of the street car, to find himself confronted with such a magnificent hostelry, it is astounding. He has heard much of the thrift of Gainesville, but this far exceeds expectations. This house was completed this year (1882), and is probably one of the finest structures in North east Georgia. Is built in modern style, large rooms well ventilated, and elegantly furnished. A faultless cuisine, a corps of attentive servants, all superintended by one of the best hotel men in the country, make the Arlington a favorite with all classes of the traveling public.

D. E. EVANS,
Jeweler, is also a brick manufacturer, and
The first brick building erected after the war was by him, also the first brick building in Bellton.

EARLY ROGERS,
Photographer. Few people for many miles around, who have not visited his gallery. He has ever facility and does as good work and as cheaply as anywhere in the country. He makes a specialty of Stereoscopic views of North Georgia scenery, which are very beautiful. The Merchants Home, a popular hotel and boarding house is under his management.

P. B. ADAIR,
Dentist, engage in the practice of his profession in 1870, and was the first resident dentist in this section of the state. His appartments are elegantly fitted up, and supplied with all the latest improved appliances known to the profession.

BANKS & BROTHER,
Bankers, established in 1872. Have ample capital, and transact a general banking business, with correspondents at the trade centers.

MADDUX & BLACKSTOCK,
Butchers, commenced in 1879; conduct a general meat market, and keep it up fully to wants of the public.

GAINESVILLE MUSIC HOUSE
Was established July 1882, managed by Miss Ada Stansell, and from a small beginning has worked itself into prominent notice, and is now one of the permanent institutions of the city.
Musical instruments and merchandise of every description will be found in stock.

COX & DORSEY,

Real Estate Agents, commenced January, 1882. Both of them are well known as public spirited, energetic citizens, and business placed in their hands will receive careful attention.

W. W. STOVALL & BRO.,

Dealers in general merchandise, commenced business here January 1882. They are live young men and keep a good assortment of goods and are building up a good trade.

BOARDING.

Mr. T. H. P. Wright, opened on Academy street, the first of March 1882, an elegant boarding house, where he offers good entertainment at reasonable rates. The house is large and pleasantly situated.

Attention is directed to the cards of A. M. Cochran, real estate agent, and U. S. pension and claim agent. He gives all business entrusted to him close and prompt attention.

GAINESVILLE'S PRIDE. CARRIAGE AND WAGON FACTORY OF G. W. WALKER.

The most extensive between Atlanta and Charlotte. This well known enterprise had its birth 1st of March, 1876, and was from its inception a success. This was of course due to two things, first energy, and second, a class of work suited to the demands of the country. The factory is running to-day with a force of fifteen to
twenty skilled workmen, turning out a class of work in every way superior to eastern work, with a constantly increasing trade in all the surrounding counties. In addition to the manufacturing department, repairing, gin work, etc., is promptly attended to.

Miss Lizzie A. Woodward, fashionable dressmaker, established herself here in 1879, and bears the reputation of being a thorough artist in her line.

J. J. CAMM’S PLANING MILL.

Of the many industries of the city, none are more deserving of mention than this institution. It was established in February 1881, and has been in continuous operation ever since that date, giving employment to some fifteen to twenty hands all the time. Every class of work pertaining to this line, is done as cheaply and in many instances cheaper than it is done elsewhere, while promptness is one of the cardinal points of the establishment.

BROWN BROTHERS’ BANK.

Was established in the year 1876. They do a general banking business, and enjoy the confidence of the community and similar institutions.

FREDERICK PFEFFER’S PRESSED BRICK, TILE AND FRONTING MANUFACTORY.

The present year, 1882, has witnessed the founding of this important and much needed industry, and is the first one to make pressed brick and is the only one now. The clay is of superior quality, which is made still better by
the addition of a very fine quality of pipe clay, which adds greatly to the beauty and durability of the brick. The factory has a capacity of 20,000 brick per day, and large quantities of tiling and fronting brick. These readily and sale in portions of the state, in preference to all others.

HOPE FOR THE AFFLICTED—T. M. MERCK'S TRUSS.

In being the home of the above, Gainesville leads the world, for none among the thousand and one contrivances of this kind approach the Merck truss, in excellency, ease and comfort. A visit to the rooms of Mr. M. will convince the most skeptical of this fact. There will be seen almost a cart load of all kinds of trusses which have been discarded, and the Merck truss substituted in their stead.

BLACKSMITHING.

Mr. E. Montgomery, commenced in his new shop 10th of August, 1882. He is amply prepared at all times to meet any demand in his line.

J. W. RICHARDS & CO.—T. S. CAMPBELL, MANAGER,
BOOKSELLERS AND STATIONERS.

It takes intelligent and well-read people to make a thriving city. From this point the book store finds its inception. The present house was established the 1st of January 1887, and it is not saying too much to claim that it comes up fully to all the requirements of the city and country. On its shelves will be found all the standard authors in science, history and fiction. A large miscellaneous stock of goods usually kept in bookstores will be found in the greatest profusion.

THE ALHAMBRA—JAS FINDLEY, PROP'R, EST. JAN.
1878.

Gainesville does not claim to be the home of the Moor-
ish kings, nor antiquated cranks of any kind. But for a
well ordered saloon, the claim is made that the Alhambra
takes the lead as being the only place in the city, with
one exception and that in new town, where a good drink
may be obtained. “Here the thirsty may beguile the wea¬
ry hours away with Kentucky’s best the Mountain Dew of
our own state, court the favors of old Gambrinus or revel
in all the luxuries of the land of the grape.

INSURANCE AGENCY.
Conducted by H. L. Chesb'rc, was established in Octo¬
ber 1878. He represents some of the strongest compa¬nies
in the country.

MARBLE WORKS OF A. T. MENGs.
Although a tombstone is about the last thing wanted in
the drama of life, yet it is one of the most im¬
portant industries of the country. Care and respect for
the dead is one of the most condescending and beautiful sentiments of the human hea¬. Mr. Mengs has succeeded in
building up an extensive trade both at home and abroad.
His work may be seen in all the principal cemeteries of
North East Georgia. His designs are new and the finish
of his work equal to any in the entire country.

JOHN SPENCE,
Is the only tailor Gainesville can boast, but he fills the
bill and that is sufficient. He has been here since 1865; is a
good work man and gives satisfaction.

DR. B. M’WOOLLEY.
The well-known opium and whiskey cure doctor has an
advertisement in these pages. The Dr. has gained a
world-wide reputation though the medium of his wonder¬ful cures.

H. T. MARTIN,
The well-known livery man of Spring street, commenced
section of the country. His stock, vehicles, and in fact everything about his premises are of the best.

AN ARCADE—IS THE MAGNIFICENT ESTABLISHMENT OF JNO. A. SMITH & CO.

Established 1875. Like others of the city, this firm does not do things by halves, and nothing short of three fourths of a square affords them room enough. The building occupies over half one side the square, running back a distance of 150 feet. In this space is stored an almost endless array of goods, composed of fancy and staple dry goods, notions, clothing, boots, shoes, hats, groceries, hardware, furniture, machinery, etc. The house also does a considerable jobbing trade.

PIEDMONT FOUNDERY AND MACHINE WORKS—R. H.

BUTLER & CO. PROPRIETORS. EST. JAN. 1881.

And still they come! but not a moment too soon. Machine shops are probably aside from their usefulness, the strongest factors of all industrial institutions, in attracting trade and other industries to the city in which located. The Piedmont is no exception to the general rule, and is meeting with success. They are running to almost their full capacity, turning out a large amount of work, and are extending their trade all over this section of the state. They do all kinds of mining, mill, railroad, agricultural and general machine work, at as low figures as any other institution in the land.

JNO. A WEBB & CO.

Dealer in stoves, tin ware and house furnishing goods. This house commenced business January 1882, and is the only exclusive House of the kind in the city. They carry a full line and are manufacturing goods in these lines all the time. Their trade outside the city is large, and
creasing with a good city trade. Roofing and guttering is also one of their branches.

LIVERY, FEED AND SALE STABLES.

In speaking of the livery, feed and sale stable of W. P. Smith, we are carried back to the ante bollum days of 36 years ago, that being the time of his establishment in this city. His stable is well stocked with good stock and vehicles.

W. H. HENDERSON,

Saw mill owner, manufacturer of lumber, laths and shingles, commended in 1880. He is prepared to promptly fill all orders.

J. N. LODEN,

Watchmaker, and practical jeweler, has been the time regulator of the village and city for thirty years, and is known far and wide through this section of the state. In addition to his jewelry department, he makes a specialty of spectacles and eye glasses, and carries the largest stock in Northeast Georgia.

E. S. WILEY DEALER IN GENERAL MERCHANDISE,
TINWARE, STOVES, ETC, EST. 1871.

This well-known house can be properly classed as one of the representative houses of the city, having kept step with the progress of the city from the time its doors were first opened. Its various departments are kept full and complete with seasonable goods of every description, and customers can always rely on finding just what they want.

CHARLES LEMKE,

Harness and Saddle Manufacturer, established in latter part of 1881. This important industry had for some unknown reason, until this date, allowed to lie dormant. The trade was mostly handled in eastern goods, by the
merchants, who did so for the accommodation of the customers. With the advent of Mr. Lemke, this is all changed, as he is an energetic and experienced workman, and proposes doing a class of work as regards good quality and fine finish never attempted here before, it being his intention of building up a factory second to none in the state. His trade is already very large and increasing rapidly, which will soon necessitate moving into more extensive quarters.

AN EMPORIUM—J. R. BARNES & CO.

This house is one of the largest houses in Northeast Georgia. Was established in 1875, and now has a trade exceeding $100,000. The reader can form some idea of the popularity of the house from the fact that one small store room was large enough for the transaction of their business. Now three very large ones hardly afford sufficient. In the first one is an endless variety of clothing, boots, shoes, hats; in the second, a complete stock of dry goods, dress goods, notions and millinery. The grocery department contains everything known to the trade. The house also an extensive wholesale trade.

PIEDMONT SALOON.

Is an orderly and well-kept place, keeping for the benefit of the thirsty the purest of liquors, wines, etc., and the best brands of cigars and tobaccos. Its proprietor is also the patentee and owner of Yearwood's Roofing Paint, which is highly praised by those who have used it.

G. M. KELLER & SON.

Bakers. This, until fourteen months ago, was an industry unknown in Gainesville. Like all the others, it is succeeding. These gentlemen came here from Jacksonville, Fla. At three successive State Fairs, there they were awarded medals for the best bread.
Attention is called to the card of Mrs. J. W. White, dressmaker. She also teaches the art of cutting and fitting on scientific principles.

PALMOUR, CASTLEBERRY & CO.

A sketch of this firm is almost the history of the city, as it has been a popular house and enjoyed a large trade all the time. It was established in 1871, and its growth has been steady with the advancement of the city and country. Their building occupies almost an entire square, filled above and below to repletion with fancy and staple dry goods, notions, groceries, clothing, boots, shoes, millinery, furniture and machinery, all classified and divided up in appropriate departments. The house makes a specialty of handling country produce, buying everything in this line in large quantities. Their jobbing trade is also very large and increasing.

W. D. & E. H. WHELCHEL. EST. JAN. 1880.

This is another representative house in the strictest sense of the term, and is deservedly popular. They carry a large stock of dry goods notions, boots, shoes, hats, groceries, cigars and tobacco. Both are energetic young men, who appreciate the fact, that to catch trade in these stirring times, is to keep up with the wants of the people, sell low and let the public know it. By pursuing this course, they have built up a very large trade in both city and country, which is steadily growing.

T. H. LOVELESS.

This gentleman, although well-known here
embarked in business October 1, 1882, buying out the establishment of B. J. Holland & Son. He has ample capital and thorough business experience, which will insure his keeping a stock fully up to the demands of the trade.

Attention is called to the card of Greene's gallery. Mr. G. came here in June, 1882, and has already built up a large trade.

A FAVORITE—THE RICHMOND HOUSE.

This well-known house is the best situated of any in the city, being only a hundred yards from the depot, on the line of the street railroad, and the starting point of stages for all interior points. Its possesses peculiar attractions to the traveler. The summer boarder here finds all to be desired. The tourist on the account of its convenient location, and everybody with its well kept, comfortable rooms, superior table accommodations, and general home-like air pervading the whole. Our advice is stop at the Richmond.

J. G. STRINGER.

The well-known butcher of Bradford street, commenced during the year 1874. His shop is a model of neatness in all its appointments, and supplied at all times with the choicest of meats.

L. Q. HEADERS.

Livery, feed and sale stables, commenced here about six years ago. His stable is supplied with the best of everything pertaining to the business. He also runs the accommodation hack line to Dahlonega, and furnishes conveyances to all other interior points.
T. H. LOVELESS,
Dealer in
DRY GOODS,
BOOTS, SHOES, HATS. NOTIONS,
AND
GROCERIES,
MAIN STREET, NEAR DEPOT,
GAINESVILLE, GA.
Agents for the Van Winkle Machinery.
Fresh meats kept.
CALL AND SEE ME.
FRANK M. Picken.

This gentleman has been identified with the "art preservative" in this city, the greater portion of his life. As a capable printer, he has no superior, and to his skill we are indebted for the present and first Directory of Gainesville.

A. Hope & Son.

Proprietors of the new town stables. The foundation of this establishment dates back to 1871. They run the daily mail line to Dahlonega, and furnish outfits for all points.

H. Atkins & Co.

Dealers in guanos and provisions, commenced business here twenty years ago. They are known in this connection over the entire territory supplied by this market.

W. W. Hood.

Artistic job printer, is an old resident, and known in this connection far and wide. He has all the late facilities for doing the finest class of work.

C. A. Lilley & Co.

Wholesale dealers in tobacco, guano and provisions, is one of the live, progressive firms of the city. They have a trade extending over the greater portion of this state, into North Carolina and Alabama, amounting to over one hundred thousand dollars per annum. They are pushing business into every nook and corner of this territory.

J. H. Hunt,

Dealer in general merchandise, established
himself here 1875. He carries a large and well selected stock of goods.

W. S. Cox,

Undertaker, commenced first in this business about six years ago. He keeps everything in this line.

Dr. E. E. Dixon,

Wholesale and retail druggist, commenced business August 1879. His establishment is a model of elegance and neatness, and the stock includes everything in the drug, medicine and fancy article line.

The Painters

Of the city are Smith & Fretwell, who commenced here two years ago. They are artists, do every class of work from house and sign painting to frescoing in oil.

The Mammoth

Establishment of C. W. DuPre, general merchandise, was established October 1, 1877, and is one of the most successful and widely known houses in this section of the state. In all its varied departments, including fancy and staple dry goods, notions, groceries, boots, shoes, hats, clothing, ladies' and gents' furnishing goods, a large assortment of tastefully selected goods, from which selections can be made to suit the taste of all.

Gainesville

Can only boast of one exclusive clothing store, but with such a firm as L. M. Kraus & Co., this is sufficient. This firm commenced here during the present year (1882), and have one of the
most magnificent stocks of clothing, gents' furnishing goods, boots, shoes and hats ever brought to this market.

LAWYERS.
J. B. Estes, located here January 1, 1872.
J. M. Towery, located here August 16, 1877.
E. M. Johnson, admitted here, 1879.
E. M. Johnson, oldest member of the bar.
Garland H. Prior, located here fall of 1876.
Winfield S. Pickrell, admitted September 1881.
W. L. Marler, located here January 1871.
W. F. Findley, admitted in 1870.
Claud Estes, admitted November 1, 1877.
Geo. K. Looper, located here January 1878.
Lester D. Puckett, admitted February 1882.
Howard Thompson, admitted in 1880.
Jasper N. Dorsey, admitted before the war.

PHYSICIANS.
J. W. Bailey, located here in 1872.

Ed. J. Camp located here April 1882.

INSTANTANEOUS

For Pictures Taken Quick as Lightning, Call at Greene's Gallery, Gainesville. Splendid Side Light Opened Oct. 1, 1882.
Motto—"To educate woman is to refine the world."

Corner stone laid by the Masons and Odd Fellows July 4, 1878; chartered with large powers August 1878; organized with a full grade of college classes. After appropriate religious services, in September 1878; graduated first class of excellent young ladies in January 1879, and has graduated a nice class every year since.

The object. To teach more frugally and less prodigally; more of the reality and less of the nonsense of life; more of the domestic arrangements of a neat household and less of the handbox of a milliner's shop.

Expenses. Board and tuition $150 a year; music included $285; French and Ornamental lessons at very moderate charges. Fees due in advance.

The scholastic year begins on the third Wednesday in September, and ends on the third Wednesday in June, which will be commencement day.

Capacity of Seminary. Boarding room for forty students, and teach 200. Board of teachers experienced, every one graduates and well qualified for their work.

Last catalogue shows a summary as follows:
College,  70
Academic classes  49
Music department  54
French  18

Total  101

For further information and a catalogue, write to W. CLAY WILKES, President, Gainesville, Ga.

METHODIST COLLEGE, CHARTERED APRIL 1, 1881.

On the 27th day of December, 1880, the Rev. C. B. LaHatte bought the house and grounds known as the old Baptist Church property, and announced his intention of having it chartered under a Board of Directors as the The Methodist College. The application was made, and the charter granted on the 1st day of April 1881, the school had already been opened on the 17th of January. The following well-known gentlemen compose the Board of Trustees: J. B. M. Winburn, Thos. A. Daniel, Wm. B. Clements, Wm. P. Smith, John A. Smith, A. M. Parks, Wm. Wood, A. T. Wood; Rev. C. B. LaHatte, president.

The course of studies embrace all taught in similar institutions. This year the buildings have been greatly enlarged and furnished with modern school furniture, apparatus, etc., making it the equal in every respect to any institution in the land. Added to all these advantages its cheapness and the healthiness of the location, thoroughness of instruction may be mentioned. Taking it all together, none have brighter prospects for the future, especially as this city is already attracting the attention of the people of the south to it as an educational center.

THE GAINESVILL COLLEGE—MALE AND FEMALE.

This institution was founded in 1874. Was built by the city and cost in the neighborhood of $10,000. The money was raised by issuing bonds, which were readily disposed
The college was to be governed by a Board of Trustees, appointed by the city, and the first Board thus appointed were, Hon. G. D. Rice, Col. J. E. Redwine, Rev. W. T. Thornton, Dr. J. S. Bradley, W. A. Brown, Col. A. D. Candler and J. B. Estes. They met in the fall of that year and selected a faculty with Prof. G. C. Looney as president. This gentleman resigned October 9, 1875, and the Rev. W. C. Wilkes was elected in his stead. In 1877 a new Board was elected, composed of Col. J. E. Redwine, J. D. M. Winburn, Dr. H. S. Bradley, Col. C. C. Sanders, Dr. R. E. Green, J. R. Boone and Col. A. D. Candler. They elected the Rev. Mr. C. B. LaHatte president for 1877, and re-elected him for 1878. During this time the building was leased by this gentleman, he paying a rental of $150 per annum, but there being some dissatisfaction, he gave it up, and the Board elected Samuel T. Lane, of Athens, president, and re-elected him for 1881. In the beginning of this year the Rev. Mr. J. J. Methvin, now president, joined him as associate principal. Prof. Lane resigned, and Rev. J. J. Methvin was elected to fill the vacancy. This gentleman was re-elected for 1882. The institution was chartered August 23, 1882. The present fall term opened most auspiciously, the number of students being larger than ever before, with bright prospects for the future.

THE PRESBYTERIAN CHURCH.

Its Establishment and Progress.

The notes at hand or obtainable, of the formation of this church, and the incidents which go toward the making of a history are brief, and the writer has had considerable trouble in even ob-
taining those which are now placed before the reader.

The church was first established and a house of worship built in 1825, and was the pioneer of all other denominations. Nothing further of its history is known by its present members, further than it did not seem to thrive for some reason, and sometime after its establishment, it became disorganized and the building was removed to a point called Concord, a distance of ten miles from here, and a church established there. From this time up to 1866 the town was without a church of this denomination.

During this year, Maj. Jno. E Caldwell, now dead, and who with his wife, were interred near the church door as a special mark of love, headed a move toward the re-establishment of the church. Many difficulties were in the way. The congregation was small, and the money and social affairs consequent upon the closing of the war were to be contended with. But by the most indomitable will and perseverance of the gentleman above alluded to, the object was accomplished. The Episcopalian church building, built by a Mr. Hall, afterward murdered in Brazil by one of his slaves, was purchased as a house of worship, and is the one now used.

Nothing further of especial interest remains to be told with the exception that its membership has steadily increased from that time. It was intended to give the names of the pastors from the beginning, but the names could not be
obtained in time. The following are the pres-
officers and pastor: Rev. T. P. Cleveland, pas-
tor. Elders, Dr. R. E. Green; Dr. H. J. Long;
Col. J. B. Estes. Deacons, J. T. Telford, O. M.
Dobbs. Treasurer, J. T. Telford. Prayer meeting
Wednesday evenings. The Sabbath-school su-
perintended by Col. J. B. Estes, is in a flourish-
ing condition.

GAINESVILLE BAPTIST CHURCH.

Of the organization of this Church, or of the
names of all the Presbytery who composed its
organization, we have no correct data. But one
of the number—Mr. John Williams—an old
and worthy citizen of the county—now lives.
the others have long since paid the debt of
nature. Suffice it to say, however, it was con-
stituted at a very early period of the country's
history, shortly after the red man was driven
from the soil of Hall county, and was known
as "Shiloh" Church to 1845, and is therefore,
considered one of the pioneer churches of this
section. Its first house of worship—a wooden
structure—was built in 1840, and among its
roll of members we find many influential men,
not only of Gainesville, but of the State, dur-
ing that time. From 1840 to 1870 it had
its sunshine and shadow, common to nearly
every country church. During the latter year,
however, when the railroad infused life and
energy into our population and civilization, its
membership determined, owing to the rapidly
growing congregation, to erect a more extensive building. Accordingly the work was begun, and after many years of embarrassment, brought about by financial trouble, the building was finished, every cent of the work paid for, and to-day it has the finest house of worship, not only in Gainesville, but in Northeast Georgia. It is a monument to the brethren who so zealously labored for it. The following are the names of its pastors, and years in which they served, as far as we have been able to ascertain:

Elder B T Smith, from 1842 to 1843; Elder A Anthony, from 1843 to 1844; Elder Asa Chandler, from 1845; Elder A M Spalding, from 1845 to 1849; Elder R E Oliver, from 1849 to 1851; Elder W P Reed, from 1851 to 1852; Elder D Hutchins, from 1853 to 1855; Elder S Roberts, from 1855 to 1856; Elder W C Smith, from 1856 to 1864; Elder S E Reeves, from 1864 to 1870; Elder W T Thornton, from 1870 to 1875; Elder W C Wilkes, from 1875 to 1880; Elder Marshall was elected at the close of Rev W C Wilkes' term, and is now its pastor.

The officers of the church are as follows: R Palmour, R B Adair, M D Hudson and A M Jackson, Deacons; R Palmour, Treasurer, and Prof. J T Wilson, Clerk.

The stated meetings of the church are preaching twice each Sabbath, and prayer meeting and Conference every Thursday night. In addition to these, there is attached to the church, a large
and flourishing Sunday school which meets every Sabbath morning at 9 o'clock. Rev W C Wilkes is Superintendent and Mr W A Brown, assistant.

THE methodist church

Was organized with a few members in 1833 in the Presbyterian Church building, that being the only one in the town, and used when not occupied by the Presbyterians by all the denominations. In the formation of the town the county had donated a lot, to each denomination, but the congregations were too weak yet to build. Mr E M Johnson was the first Methodist here and only one at the time of his location, and can be properly regarded as the father of the church here. At the completion of the new court house in 1834, the old one was offered for sale. When the day of sale came, Mr Johnson stated publicly that he wanted to buy it for the Methodist Church, and offered $150. No one would bid against him and the treasurer refused to let it go at that price. It was again advertised and on sale day Mr Johnson was on hand again, offering the same bid and no one bidding against him. After considerable higgling on the part of the officers it was finally knocked off to him at $150. It was soon moved to their lot, remodeled and occupied as the first house of worship, and from this beginning a membership of about 400 has
grown. It was rebuilt in 1874 in modern style, and is now one of the ornaments of the city, while Mr Johnson still lives to see the effect of his great work.

The Episcopalians as yet have no history as there is quite a number of that faith here. An organized church in this city although efforts are being made however, which will soon culminate in the building of a handsome church edifice. Money is already in hand for the purpose, and would have been used before this but some trouble was experienced in getting a suitable location. As soon as this end is attained ground will be broken immediately and the work pushed to completion rapidly.

The Northern Methodist Church has a small congregation and a pastor but no house of worship. Some efforts are being made to erect one.

The colored Baptist and Methodist churches are both in a prosperous condition taking into consideration the number of their population, which is very small for a city of this size.

COUNTRY CHURCHES.

Holly Springs Baptist Church is situated seven miles Northwest of Belton, at which services are held at stated intervals.

Air-Line Baptist Church is located about six
miles from the city, and one and a half from White Sulphur Station, or Bowdre postoffice.

Timber Ridge Baptist Church is situated about eleven miles, in an Eastwardly direction from the city.

Dewberry Baptist Church is situated on the public highway known as the Cleveland road, about nine and a half miles from the city.

Bethlehem Baptist Church is situated three miles to the Northeast of Lula.

South Bend Methodist Church is situated on the Cleveland road, about six miles from the city.

New Bridge Baptist Church is situated about six miles from town near New Bridge, a short distance below Charles Bridge on the Cleveland road.

Antioch Methodist Church, six miles distant in a Westward direction.

Pleasant Hill Baptist Church, miles South of the city.

WHITE SULPHUR SPRINGS STA...

Postoffice: Bowdre. Is on the Richmond & Danville road six miles east of the city; has one store, express office. Mails are distributed here for White Sulphur Springs, two miles distant, where an office is kept during the summer season. Several mines are located near here, the Black Hills gold, the Phinny silver mines. The largest and most important, however, are the gold mines of the Currahee Mining and Milling Co. This company is incorporated under the laws of New Jersey, although C.
A. Lilly, of Gainesville, is the principal owner and superintendent. The mine is fully developed, and is now paying handsome dividends. The vein is what is known as a true fissure, and has been cut 160 feet below the surface, and the lode six feet wide. At a distance of 150 feet its ores are sulphurated, some of which assay by fire test $410 per ton. The company own an immense body of land, and with the present facts before the writer, it is safe to predict that this will prove the richest mine yet discovered.

GILLESVILLE.

Is a postoffice and station, containing two business houses, on the Northeastern road, eight miles from Lula.

THE GLADE MINES.

This point is twelve and a half miles to the Northeast. The mining property belongs to A. G. Jen- York City. He owns a store, saw mill, and during mill at High Shoals, on the Chatt- three miles above. The postoffice is known as Farming to a considerable extent is car- oned on under the same management, necessary shops, etc. A Sabbath-school and good day school are taught here.

BOLDING MILLS.

The above are situated on the Chestatee river, nine miles west of this city, and are well deserving mention. They were built in 1833, by the present proprietor, and were purchased by him not long afterwards; are supplied
with good machinery and make the finest grades of bread-stuffs. The post-office for the settlement is Woolleys Ford. In the neighborhood are the Chestatee Baptist and Antioch Methodist churches; and the Chestatee Academy, which is liberally sustained.

**BOLDING'S MILL.**

Situated on the Chestatee river 9 miles from this city.

Manufacture all Grades of Flour, Meal, Ship Stuffs, Etc.

W. R. BOLDING, Prop'r.

**Lula.**

Lula is a pretty little village, situated at the junction of the Northeastern, and the Richmond & Danville roads, one mile southwardly from Bellton. Was laid out by the Northeastern road, about six years ago. Contains about 150 inhabitants, and is thriving. A farming country surrounds it, which is improving. Only one church has been established and that a colored Methodist, but the Bethlehem Baptist church is only two miles distant, where services are held. A school is taught part of the year at this point.

**BUSINESS INTERESTS.**

The establishment of J. R. Huggins, C. W. Asbury, superintendent, was established October 1880. They keep a large stock of general merchandise, and have a good trade.
This was the first house established after the town was laid out (about six years ago), the pioneers being Messrs. Massey & Cope, who sold out to the above firm. This firm do a large business, keeping a stock suited to the wants of the trade.

**THE ROSTER.**

**General Merchandise—** J. H. Huggins. C. W. Asbury, manager; Banks & Smallwood.

**Post Office—** J. H. Banks, P. M.

**Railroads—** Northeastern, and Richmond and Danville.

**Telegraph and Express—** Western Union, and Southern.

LULA, GA.
FLOWERY BRANCH.

What an Energetic Little Town Can Do.

Flowery Branch one of the prettiest and most energetic towns between Gainesville and Atlanta, is located on the Richmond and Danville Air-Line Railroad—nine miles from the former. The town was first laid out or rather incorporated in September 1874, although there was quite a village between that date and the building of the railroad some two years prior. It was favored from the first with having a fair location for attracting trade from quite a distance, and in having live and energetic business men to push business. This at once gave the place a reputation for thrift and fairness, two very necessary attributes to success of every kind. At present it stands at the head of shipping points, shipping the astonishing amount of 7,000 bales of cotton annually for the last few years besides a large amount of country produce of various kinds. The number of inhabitants now at a low estimate is 500 with an excellent school, Baptist and Methodist churches, Sunday schools, Masonic and Odd Fellow societies and every evidence of social culture and refinement. In December 1881, a destructive fire occurred which swept off a large portion of the town, but with their usual energy the losers went almost immediate at work again.

rebuilding and now the burnt district is almost rebuilt again, with better buildings than those burned. Jackson, Gwinnette, Forsythe, Dawson and Lumpkin counties makes this a shipping point, consequently a large trade is obtained from these counties. More improvements in the way of opening streets, erecting new buildings etc., is being done now than at any time previously in its history. The following are the present officers: J. P. Canning, Mayor; J. T. Sepp, Marshal; Wiley Light, J. L. Pirkle, H. M. Williams, W. D. Hawkins, J. F. Kendrick, Aldermen.

BUSINESS INTEREST.

The McAfee Brothers general merchandise dealer’s, commenced September 1881, are reliable and popular merchants, keeping a well assorted stock of goods and constantly increasing their trade.

W. B. & T. H. PORTER

Are a new firm. They keep a general stock of assorted merchandise and are growing in popularity. They are headquarters for the sale of the Estey Sewing Machine, which is one of the best now on the market.

THE STORE AND TANNERY AND SHOE SHOP

Of F. S. Barrett, next claims our attention. In this store will be found a heavy stock of merchandise of every description. His tannery which is situated within half a mile of town is at once a credit to himself and the town. In

addition to this he owns a shoe shop where any class of shoes are manufactured to order.

WAGONS, ETC.

The wagon and buggy factory of Pirkle & Thomas, established under recent firm style in 1880, is another one of the the industrial institution. They have a trade fully up to their capacity, and enjoy the reputation of being first-class workmen.

BORING & MAHAFFEY,

Dealers in general merchandise, have recently got into their new quarters on Broad & Railroad street on the burned district, where they have a neat and convenient business house. They now have a superior assortment of goods from which to select from.

THE HUGHES HOUSE,

Of which A. C. Hughes is the proprietor, is located on Broad street, convenient to depot, livery stables and in the business portion of the town. Guests will find this a model house with moderate charges.

THE ESTABLISHMENT

Of Harmon & Canning, general merchandise, commenced in 1870, and is the oldest house in town. Their trade is very large and extends over the entire section of country. They are both pushing business men, and are generally found about the head of any move looking to the advancement of the town. Their establish-

ment is at all times fully stocked with seasonable goods of every variety.

F. T. DAVIE,

Dealer in general merchandise and whiskey, commenced in 1874, keeps a good stock of goods and does his part in diverting trade in this direction, consequently he gets his share and enjoys the confidence of his patrons.

J. D. BAGWELL

Is a familiar name to many farmers and others who use wagons and buggies or have occasion for repairs, for many miles around Flowery Branch. He has had an extensive shop in four miles of town for about twelve years and still keeps it in operation. In February 1882, he established another in town, and is running at full head all the time, which is the best evidence of the popularity of his work, and his success as a business man.

V. A. GARRISON

Dealer in whiskey and confections, commenced first of May 1882. He keeps the best in his line, and like almost everything else in Flowery Branch, is succeeding in building up a good trade in both town and country.

THE BEST IN THE COUNTY

Is the way we class the jewelry establishment of James F. Duffey. He dates back to November 1881, and has by far the largest stock of jewelry, watches, clocks and spectacles in the county, and probably between Atlanta and Charlotte. He also deals in the celebrated Estey Organ and music books. His trade

BELLTON.
Formation, Growth, Business, Etc.

Bellton lies on the extreme edge of Hall county, adjoining Bank, and a small portion of the town lying in the latter county, the line running obliquely through it in a Northeastwardly course. The town dates its establishment back to the building of the Richmond and Danville railroad in 1873. Being an accessible point to a large scope of good country, it built up quite rapidly. At present it contains about 500 inhabitants, with fair schools, two good churches, Odd Fellows lodge, Good Templars hall and a newspaper. The majority of the business houses are substantially built, with one large brick in course of construction. Also a large cotton warehouse being built by a Texas party. Several other lesser buildings are going up, showing unmistakable evidences of thrift. About three thousand bales of cotton are annually shipped from here, and with the present rate of development of the country this will rapidly increase. A large business done in the produce line, this being the shipping point for an extensive area of country. Considerable quantities of gold is obtained near by, as yet however, nothing has been done towards extensive development. The mail facilities are good, having a double daily mail on the Richmond and Danville road, and daily mail from Athens and Clarksville on the Northeastern road, with cross routes as follows.

Home route, leaves Tuesdays, Thursdays and Saturdays; returning on intervening days. The offices on this route are Allendale, Silver Shoals, Middle River and Crocklin; these offices supply Urena, Cheap and Fruit.

Cleveland route, leaves Thursdays; on this route are Lena, Head's Ferry and Mossey Creek.
LEADS THE VAN.
