Independent and Progressive

Baldwin Directory Company, Inc., publishers of this city directory and the world’s largest independent publishers of city directories, is in no way connected with any national association or directory “trust”. Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a progressive company, constantly on the alert to improve its service.

The ABCD type of city directory was originated by the Baldwin Directory Company, Inc. While many publishers have been content to rest on their laurels, issuing the same type of directory used 30 years ago, the Baldwin organization has led the way to the production of a modern city directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Baldwin directories will stand for the highest ideals in public service.

INTRODUCTION

Baldwin Directory Company, Inc., publishers of your city directory, takes pleasure in presenting the 1939-40 edition to the general public. A large force of trained enumerators and solicitors worked diligently in the preparation of this volume and we are confident that the result is an authentic and useful city directory.

We have faith in the continued growth of your city and we believe that our directory will take its place as one of the vital instruments for the advancement of your community. Subsequent editions will be issued promptly and regularly.

This volume is an example of the ABCD type of city directory as originated and developed by the Baldwin Directory Company, Inc. In the modern business world with its greatly changed sales and credit systems, the old type of directory has become completely obsolete. In adapting the directory to modern conditions the Baldwin organization is the pioneer. The excellent city directory which your city now has is the result of the progressive spirit of this company and its accurate interpretation of modern business requirements.

SEVEN DIVISIONS OF THE BOOK

The principal parts of the Baldwin Directory are as follows:

1. *The Miscellaneous Directory* contains a great deal of useful information concerning the national, state and local governments. In it are listed the names of members of congress and the state legislature, city and county officials.

2. *The Buyer's Guide and Civic Section* is made up of the advertisements of the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and professional cards of public-spirited lawyers, physicians and dentists. The display spaces have been carefully grouped and indexed under headings which are descriptive of the business engaged in by each firm. The Buyers' Guide, when properly arranged and distributed, is of tremendous value in the building of business in the community.
INTRODUCTION

3. The Resident Directory contains most of the data concerning the individual. The wife's name is given in parenthesis, and the number of dependents under 16 is shown as well as the ownership of homes. This is followed by position, place of employment and home address.

4. The Householders' Directory contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property.

5. The Business Directory and List of Nationally Advertised Brands contains the names of all business firms, professional people and non-profit organizations, properly classified. In this division are also listed the names of nationally advertised brands of merchandise, with the name of the local agents and distributors.

6. The Numerical Telephone Directory contains telephone numbers arranged in numerical sequence.

7. The Rural Routes Directory, which follows the Numerical Telephone Directory, is used constantly in reaching rural residents with advertising matter and other mail.

SPECIAL ABCD FEATURES

The following valuable information which appears in the ABCD type of directory is not to be found in the old-style city directory:

- Number of dependents under sixteen;
- Designation of home ownership;
- Telephone Numbers on Street Guide;
- Numerical Telephone Directory;
- Nationally Advertised Brands.

In addition to these valuable features, the ABCD type of directory is more conservatively styled, printed on better paper and more beautifully bound, arranged for more convenient use and contains a much more complete civic section. Directory stands are maintained in the business district for the use of the general public.

THE HOUSEHOLDERS' SUPPLEMENT

After including every conceivable feature which would tend to make the directory as useful and attractive as possible, the originators of the ABCD type of directory made one more bold stroke—they established a guaranteed home circulation for advertising matter by issuing the Householders' Supplement and delivering it to the homes of the community. Every advertisement which appears in a Baldwin directory also appears in the Householders' Supplement, making the Baldwin Directory "America's greatest dollar-for-dollar advertising medium" today.

Total Population: 16,098
GAINESVILLE
GEORGIA

“Queen City of the Mountains”

STATISTICS

City-Manager form of government.

Population of Hall County, Gainesville county seat, is 30,313. Hall County ranks 14th in population among the 159 counties of the State of Georgia. Gainesville’s population is 16,098.

Gainesville proper is a community whose limits are encompassed in a circle that has a one-mile radius from the public square in the center of the city. Outside the city, but adjoining are Gainesville’s modern mill communities.

Altitude—1,279 feet. Highest altitude of any city in the state above 1,600 population.

Climate—Average maximum year round temperature is 70 degrees; annual rainfall average is 55 inches. Gainesville is noted for its healthful climate. Its situation allows proper drainage, etc. The climate is mild and dry. The humidity conditions of the average large city are absolutely non-existent. The city drinking water is also given a large share of credit for the health conditions, government chemists have said its purity and healthful properties are unexcelled. These facts, with a modern health program, make this one of the most healthful communities in America.

Assessed valuation—$6,750,000.00.

Churches—All denominations.

Industry—Twenty manufacturing establishments. Principal manufactured products—textiles, clothing, hose, furniture, silk thread, chenille bedspreads.

Trade Area—Retail area has a radius of 3,339 square miles, with a trading population of 150,000 people.

Newspapers—Two weeklies.
Hotels—Three first class, with total of 250 rooms.

Railroads—Located on main line of the Southern Railway System between Atlanta and Washington; the Gainesville Midland Railway with confections within forty miles of the Seaboard Air Line and the Central of Georgia.

Amusements—College and High School auditoriums, two moving picture shows, excellent swimming pool, municipal golf course, private lakes and camping grounds, city tennis courts, baseball diamond, fishing, mountain hikes, private summer camp, library.

Hospitals—One privately owned and one county.

Education—Institutions of higher learning include Brenau College and Riverside Military Academy. The public school system consists of two elementary schools and one high school.

Location—Fifty-three miles north of Atlanta in the famous Piedmont Plateau Region. Gainesville affords an easy access to the game-teeming regions of north Georgia, where the Chattahoochee National Forest and Vogel State Park are within an hour's automobile drive from the city.

Highways—Radiate from Gainesville in six directions. The two most famous highways of the southeast radiate from Gainesville.

Civic Center—Covering two city blocks, is one of the most beautiful in the South. The City Hall and Court House located there are constructed of Georgia marble and represent an expenditure of three quarters of a million dollars.
Gainesville was located and made the county seat of Hall in 1821. At this time fifty acres of land were deeded for the “purpose of laying out the town and erecting public buildings.” Soon after laying out the town the inferior court set aside three lots for church sites—i.e. Methodist, Baptist, Presbyterian.

Ten years later, 1831, the population of Gainesville was about three or four hundred. Gainesville continued to grow and in 1848 was an important little town. Atlanta then had no existence and many people flocked to Gainesville, Auraria and Dahlonega, attracted by the gold fields of the mountains, for it was just before the tide of the gold hunters turned to the western shore in the ’49 era. But when the “golden shore” held greater enducements and when Atlanta began to grow, many people moved away, numbers going to Atlanta. Gainesville fell asleep for a while.

The population of Gainesville in 1851 was not more than six hundred, and the county contained only about eight thousand. In this year the little village was almost burned by fire.

In 1861 war clouds were hovering over the nation. Soon war itself was stalking abroad the land. Gainesville, though small, felt the effects, of course. Bitter reconstruction days followed the war.

Only after the war, and after the Charlotte and Atlanta Airline Railroad, now the Southern, was built did new life assert itself in the mountain town.
Top left, First Presbyterian; top right, First Baptist; center left, Saint Paul Methodist; center right, First Methodist, bottom left, Central Baptist; bottom right, Grace Episcopal; extreme bottom, Catholic.
About the year 1874 the Piedmont Hotel was built which was, at that time, quite a famous hotel. It was during this year and the following that Dr. Bailey, baby specialist, began to attract nationwide attention. Babies were brought here from all over the United States. Gainesville became known as a summer health resort and people flocked from everywhere to enjoy the healthful climate and water.

In 1879 Brenau College had its first session. From this year it has grown until today it is one of the South's outstanding institutions for women.

In 1887 Gainesville had grown considerably in population and had spread out in territory. In 1889 Gainesville became the first town south of Baltimore to have her streets electrically lighted. This lighting was made possible by a plant owned by the city.
Top—Riverside Military Academy; Center—Brenau College; Bottom—Main Street Grammar School
From about 1893 to 1896 produce was brought into Gainesville in such quantities from the surrounding mountains that Gainesville became one of the greatest produce markets in the country and the greatest egg and chicken market.

In 1898 Pacolet Mill was built which has, since that time, received wide recognition as a model mill village. Following this, in 1901, Gainesville Mill was built. These two enterprises in many ways have added much to the growth of the town.

The Dunlap Power Dam was built in 1902, and the Gainesville Electric and Power Company came into existence. With the building of this dam Gainesville was greatly benefitted. This company later become the Georgia Power Company.

Riverside Military Academy opened in 1907. From a small beginning it has grown to an outstanding school for boys. For the past number of years it has been recognized as one of the Government Honor Schools.

From a population of 9,469 in 1910 Gainesville grew until in 1920 there was a population of 10,826.

Chicopee Mill, a Johnson and Johnson Corporation, was built in 1926. This added greatly to the population of Gainesville, its business, its beauty, etc. Its model mill village with brick bungalows, underground wiring, beautifully kept grounds, health program, etc., has received recognition throughout the country.

By 1930 the district of Gainesville included 15,340 people.
When doors everywhere were closing in 1933 Gainesville saw the doors of the Owen Osborne Hosiery Mill, which had just been completed open. This not only put numbers to work at a critical time but greatly aided the morale of the people in general.

Added to the diversified industries of the community in 1938 was the Best Manufacturing Company, a silk throwing mill.

The rapidly growing industrial situation in Gainesville, the presence of two nationally known educational institutions, and the wide mountain territory which pours into Gainesville makes constant expansion a necessity. This growth will continue for Gainesville has many advantages to offer which are lacking in most communities.

Wire or write the Chamber of Commerce for detailed information about Gainesville or Hall County.
The Dixie Hunt Hotel, with 100 rooms of solid comfort, was opened the early part of 1938. The Dixie Hunt is truly “As Modern as Tomorrow”. From the sub-basement to the roof, this new, modern, fireproof hotel has been equipped with every facility for comfort and service.

The furnishings of the new Dixie Hunt are in keeping with the modern classic design of the new building and in addition to their charm and dignity were carefully selected with a view to the comfort of every guest.
Each of the 100 outside rooms is equipped with inner spring mattresses, comfortable chairs, bed, reading lamps and bedside telephone. Skillful blending of draperies, spreads and towels is a tribute to the decorators' art that you will appreciate.

You will find everything new at the Dixie Hunt except the hospitality. Under the direction of William Faw and assisted by Dick Mathews, old fashioned Southern hospitality, personal service and genuine friendliness are truly emphasized. At the Dixie Hunt you are a “name” not just a room number.

The Dixie Hunt Coffee Shop is a most attractively decorated and furnished room where delicious meals are tastefully served at moderate prices. It is completely air-conditioned for your comfort. Special attention is given to club dinners, banquets and parties.

Spend a while in Gainesville and while here stop at the Dixie Hunt.

</table>
EXPLANATION

All people sixteen years or over are listed.

Wives are listed with husbands, the wife being shown in parenthesis as follows: Smith Robt R (Mary L).

The number of children under sixteen years is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

The ©, both in the resident directory and the householders' directory designates ownership of the home.

In case of a natural widow this fact is shown with the name of the deceased husband in parenthesis, whenever possible, as follows: Smith Mary L (wid Robt R).

The occupation and place of employment are shown as follows: Smith Robert R (Mary L) elk Hub Clothing Co.

The residence of each person is shown, "h" denoting a householder or head of the family, "r" denoting people in the home. Only one person at each home should be shown with the "h." Thus, a circular mailed to each householder will reach every home in the city.

Married women, engaged in some other occupation than housekeeping, are listed individually in addition to their regular listing with their husbands, as follows: Smith Mary L (Mrs Robt R) bkpr Henry Jones & Co r 210 Main.

Names in heavy type denote patrons of the directory and are usually the leading firms in each line of business.

Persons living outside the city limits and receiving mail in the country are marked RD.

The letters BD shown on some entries indicate Buyers Directory.

Colored is shown by a ©. The publishers are very careful in using this, but do not assume any responsibility in case of error.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher in the United States.

A numerical telephone directory will be found in the back of the directory listing each telephone according to number.

A Rural Route Directory will be found in the back of this volume.

The classified business directory lists each firm according to line of business.

The numerical street directory lists each street alphabetically and each house according to number, with the street intersections as they appear. After each householders' name will be found his telephone number. In case he has no telephone the nearest telephone may be found. The © denotes householders who own the house in which they live.

The buyers' guide carries the printed messages of the city's leading business and professional firms arranged alphabetically according to classifications.

This directory shows the exact population of the city and environs at the present time.

"Queen City of the Mountains"
AND THE GREATEST OF THESE IS CHARACTER

A message to parents and educators on the Need of Character-Forming as a Part Of Every Child's Training.

CHARACTER, Capacity and Capital are the three standards by which business men judge applicants for credit. And CHARACTER comes first.

For, a man may have Capital—plenty of money. He may have Capacity—the ability to earn money. But without Character, the willingness to pay promptly according to agreement—his promises are worthless. The man with character can be depended upon to keep his promises and meet his obligations.

Character is a child's heritage, strengthened by the example of the parent and the precept of the teacher during early years; the formative period.

Character is honor—a high sense of personal responsibility and respect for one's obligations. And every child has the right to be trained in the tenets of honesty and fairness in meeting his obligations. Otherwise his education is incomplete; his chance for success is impaired.

Treat Your Credit as a Sacred Trust

Funeral Homes

D. C. Stow Funeral Home
426 E. Spring St. Gainesville, Ga.

Stow's residential location is out of the congested traffic area so that it is quiet and there is plenty of parking space. Also, being out of the high rent district enables Stow's to maintain their policy of giving reasonably priced services to all. Stow's is designed and constructed to adequately serve the purposes of a Funeral Home. Here in one coordinated unit is a chapel (with seating capacity of 200 persons, and pipe organ), parlors, complete casket displays, ambulance, slumber rooms, and preparation rooms. Stow's is complete in establishment, equipment and service.
