State of Georgia.

Be it known to all persons citizens of the United States of America, that Mr. Philip Conway, at present in the town of Savannah, is employed by me to go in search of the following persons (viz.) John Black, James Booth, Joel Malque, & Zach London who it is said perpetrated and committed a murder on the body of Henry党工委 Esq., a British merchant residing in the town of Savannah, under the sanction of an agreement entered into by certain merchants on the one part and the Governor Civil Authority of this State of the other part, whereby inducement was to be given them for their services and protection. And whereas justice requires that public faith should be supported, and the offenders dragged to justice. Do hereby require all peace officers and others residing in the
different State, and to whom this record shall be shown to give every assistance to the said Philip Carryway in securing the aforesaid persons, in order that he may be enabled to bring them into this State, so he is prosecuted to surrender them.

Given under my hand and private seal at Savannah the first day of November in the year of our Lord one thousand seven hundred and eighty-two, and in the fourth year of American Independence.
